

# Federal and State HIT Update

John D. Halamka MD

# Federal

- PCAST Report and Workgroup
- The Direct Project
- Policy Committee Charge to the Standards Committee on Certificates
- Policy Committee Charge to the Standards Committee on Provider Directories
- Certification Permanent Rule

# The Spirit of PCAST

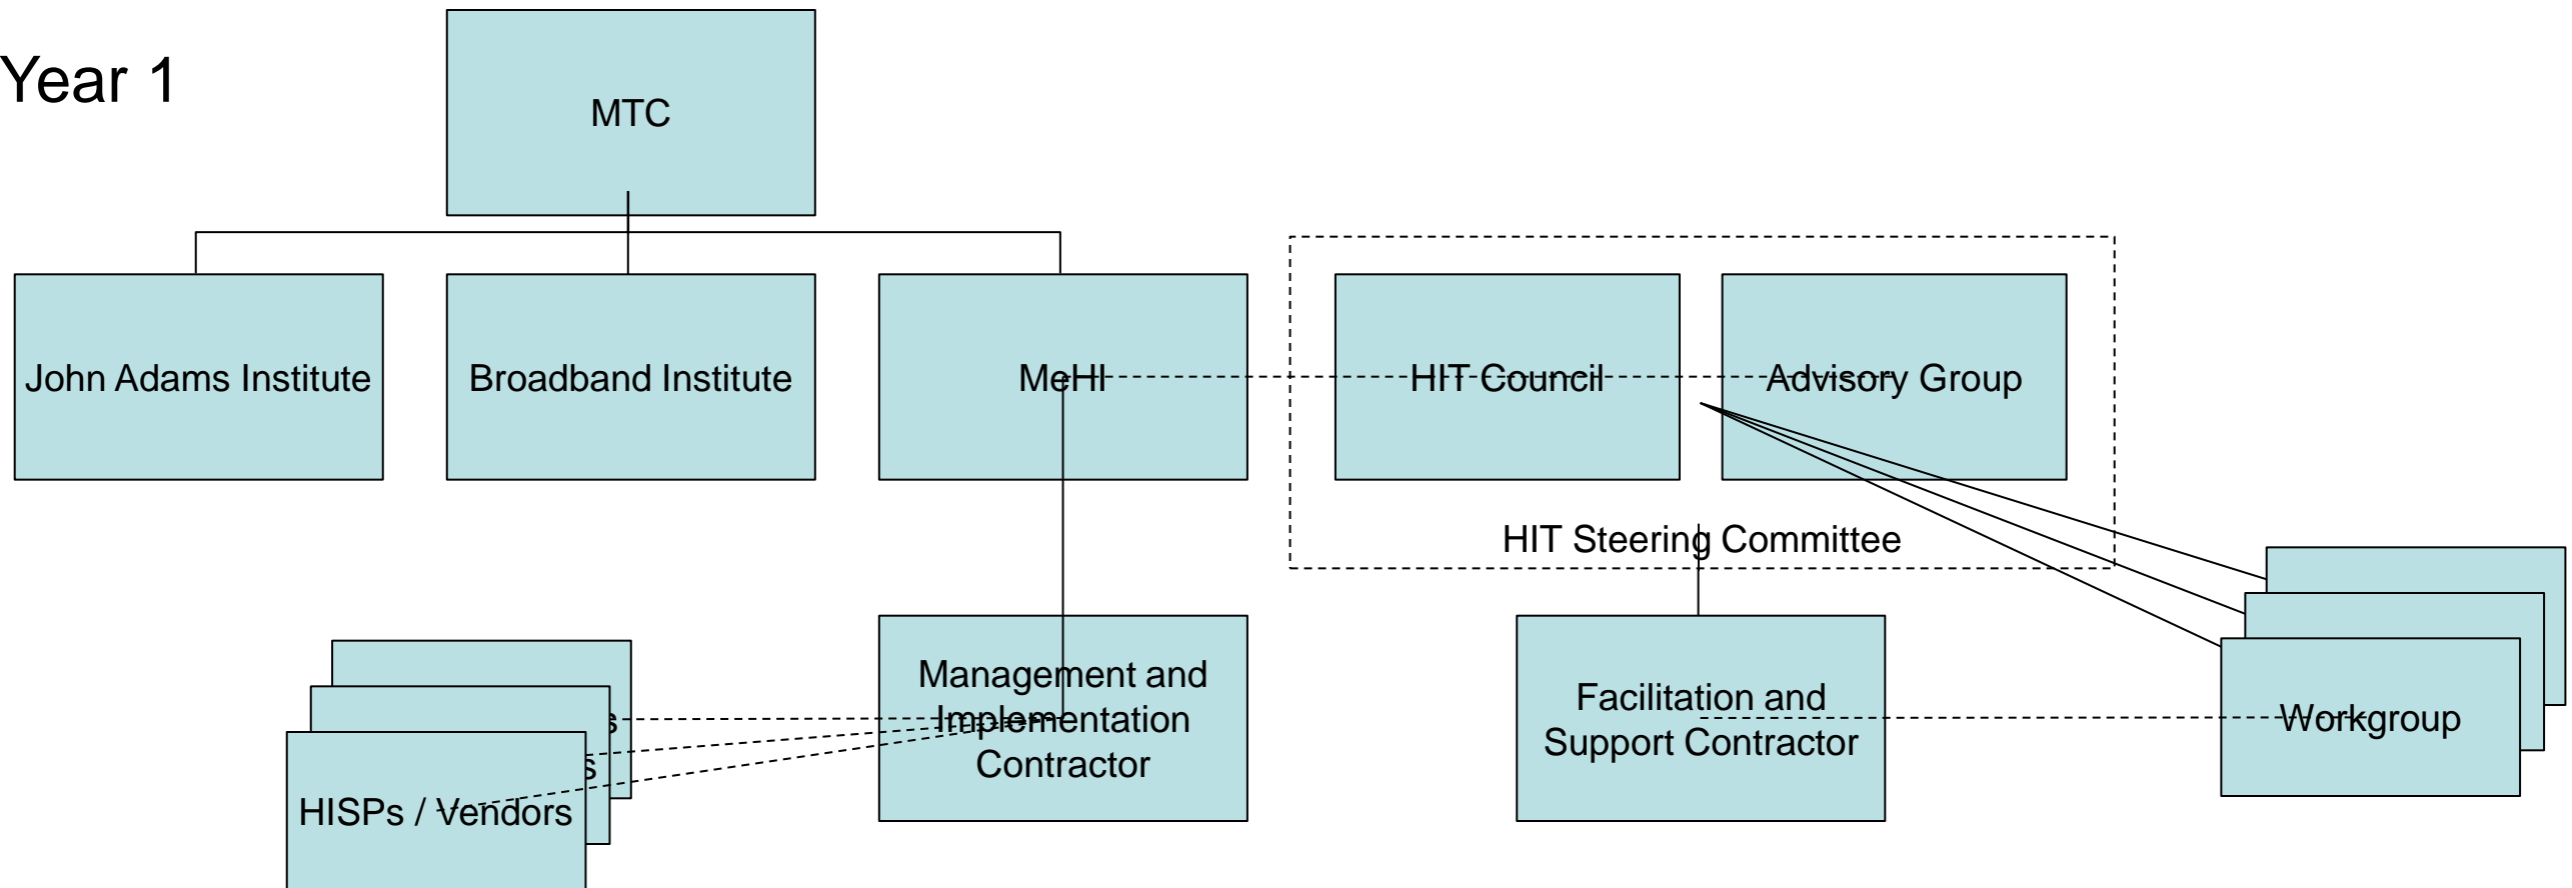

- Universal Exchange Language
- Data Atomic not Document Centric
- Metadata at the data element level
- Privacy Controls at the data element level enabling data reuse
- Search engine technology and a national Data Element Access Service (DEAS)

# State

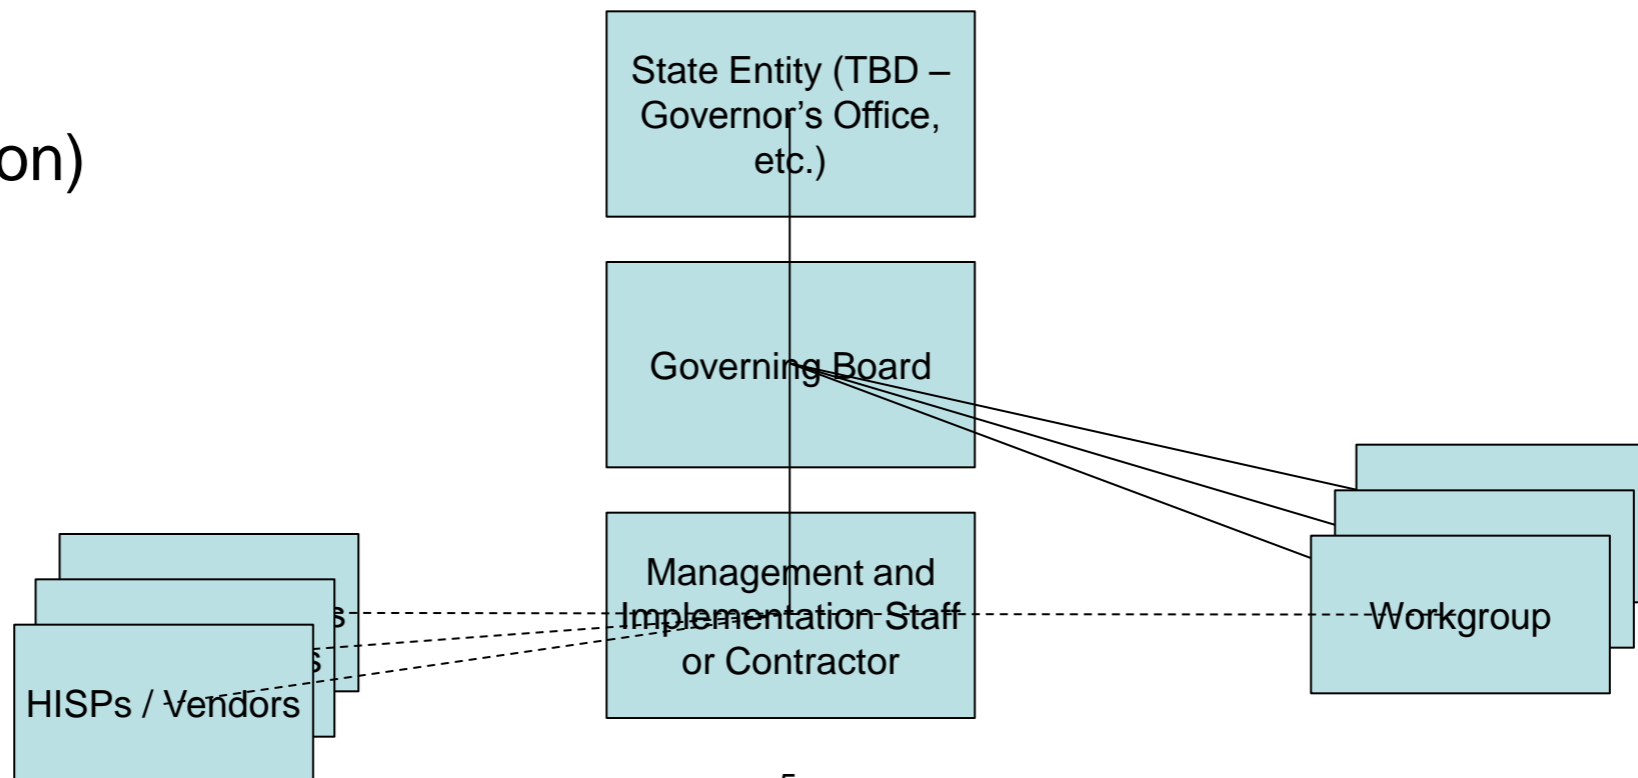

- Governance - Advisory Group + HIT Council  
= HIT/HIE Steering Committee
- Challenge Grants - Impact and MDPHNet
- Procurement - Advisory Workgroup  
Support, PMO, Provider Directory,  
Certificate Management Standards, Public  
HISP
- Sustainability Models
- Experience with Certification using NEHEN

# Governance and Management Models and Evolution

Year 1

Year 2 (pending enacting legislation)

Example HISPs / Vendors:

- Hospital HIEs
- Local RHIOs
- NEHEN
- Commercial HIE vendors
- Commercial EHR vendors

HISPs / Vendors to be “certified” to adhere to certain standards and policies and deliver certain services. May be subsidized in early years to promote adoption.
